DEATH OF AN ESTIMABLE LADY.—Mrs. Mary Atchison, wife of Mr. John Atchison, whose critical illness had been noted in the GAZETTE, died at twenty minutes past seven o'clock last night at her residence on South Lee street, in the 721 year of her age. The deceased was a native of Scotland, but came to this country when young. She lived in Maryland for some years, but for the past quarter of a century had resided in Alexandria. She was a most estimable lady, truly honored and respected by all who knew her, and her inclination for offices of kindly care and attention will be missed without as well as within her own household. She leaves a husband and several grown sons and daughters.

As the curtain rose over twenty beautiful young ladies were seen in groupings, hammocks and suspended in the air, making an elegant spectacle. The show played to large houses all the week."

CONGRESS.—The United States Senate yesterday made good progress on the tariff bill. The binding twine item in the bill caused the first defeat of the republican leaders in the Senate, binding twine being placed on the free list by a vote of 34 to 24. After the democrats had voted with western republicans on the binding twine item the latter failed to recapture by voting to abolish the duty on cotton bagging and thus benefit the South. In the House the Breckinridge election case was further considered. Mr. O'Ferrall, of Virginia, argued in favor of the contestant, and paid a high eulogium upon the character of the sitting member.

MONETARY AND COMMERCIAL.

Money matters have been rather more active this week, and the prospect for a good fall trade is fair. There is no change in the money rates, and the banks supply all business demands. The special dividend declared by the Citizens' National Bank shows that that institution is in a flourishing condition. In Baltimore money has continued in good demand and in fair supply at 5 per cent. on call, large loans being placed at that figure. Local stocks are firm, and we quote:

NEW YORK, Sept. 5.—The stock market showed no improvement from the dullness of yesterday this morning, and while the same stocks were still most prominent in the dealings, they were much less active than yesterday. First prices as compared with the final figures of last evening showed irregular changes of small fractions, and the subsequent changes even among the active stocks were equally as small.
